UGA COMPUTER SCIENCE HONORS GRADUATE READY TO WORK

Structured and organized computer science honors graduate that performs well when multi-tasking. Investigative and detail-oriented, with a comprehensive understanding of programming languages, operating systems, and coding practices. Seeking to use acquired skills in coding, debugging, data structures, and agile software development during an entry-level or junior-level position to help a company get development work done in an efficient and timely manner.

Core Competencies

Problem Solving • Teamwork • Logical Thinking • Software Testing • Code Debugging • Object-oriented Design • Creativity
Information Gathering • Systematic Thinking • Research and Analysis • Leadership • Data Structuring • Verbal and Written
Communication • Organization • Detail-oriented

Technical Proficiencies: HTML | CSS | Bootstrap | Tailwindcss | Bulma | JavaScript | Java | SQL | Node.js | MySQL | MERN | React
Express | jQuery | Visual Studio Code | MongoDB | Git | GitHub | Bash | API Querying | Unix | MVC | Python | Figma | Django | XML
Amazon lex | PHP | Firebase | IntelliJ | Eclipse | C++

PROJECTS

FoodWillBeerUs Apart.com
As part of my Georgia Tech full-stack boot camp we created a website that searches an API for beer that complements a searched food. Some of our teammates had conflicting availability when it came to group work sessions, and this caused us to fall behind. To fix this, some of the other teammates and myself stepped up and assisted those who were lagging. By working together, we were able to meet our deadline and did so with a well-made website.

Ride Share App
In my mobile application development course, I worked with one other developer to create an Android mobile app that lets people share rides with each other to specific destinations. We struggled to integrate Google Firebase storage into our app, but after consulting other classmates and teachers, we figured out we were dealing with an async issue. We made our deadline, and created a good looking and functional mobile app and received an A.

Movie Booking System
As part a software engineering class at UGA, our professor challenged us to create a complex movie booking website. At first, it was hard to work in sync with each other, because we didn't have a fully developed work plan. Then we utilized SCRUM methodology to help the team be punctual and organized with their deliverables. By the end of the course, we created a professional-looking website and received an A on the project finishing well ahead of the deadline.

CERTIFICATION

Georgia Tech | Atlanta, GA
Full Stack Coding Bootcamp   July 2023
Acquired Skills: Web Design, API Database Querying, RESTful Services, Team Management, Cloud Integration, MERN Wireframe, DOM, Asynchronous Calls, Writing Code Tests, Authorization Implementation, Payment System Integration

---

EDUCATION

Overall GPA: 3.61 | University of Georgia | Athens, GA
Bachelor of Science, Computer Science   May 2023
Relevant Course Work: Writing Code, Cleaning Data, Scrum Methodology, Programming, Code Maintenance, Data Visualization, GUI Development, Data Integration, Software Engineering, API Implementation, Software Lifecycle Determination
Bachelor of Science, Psychology   May 2023
Relevant Course Work: Complex Problem Solving, Design Implementation, Hypothesis Testing, Interface Testing, Database Development, Project Management, Continuous Process Improvement, Mathematics
Honors: Dean's List | Hope Scholarship

WORK EXPERIENCE

McCray's Tavern   **Dish Washer**   Lawrenceville, GA | 2021

Worked mainly in the kitchen. I was responsible for cleaning dishes and cookware, taking out the trash, maintaining machinery, and disposing of supply boxes. Displayed skills in teamwork, multitasking, and time management.

Mill Creek Car Wash   **Detailer**   Dacula, GA | 2019

I worked outside tending to customers. I was responsible for prepping cars for machine wash, drying cars, cleaning the inside of cars, and shining tires. Displayed skills in pacing, detail orientation, and adaptability.

LEADERSHIP ACTIVITIES

Member of the National Society of Leadership and Success, 2018 - 2022

Member of LEAD for Georgia Southern University Leadership Development Program, 2016
